

Innovabee Group: Supporting Better Management and More Growth with SAP® S/4HANA Finance

Many small and midsize enterprise (SME) clients rely on support for their SAP® solutions from Innovabee Group, an SAP partner and innovative IT consulting company. As a company that implements and supports SAP solutions, it is important for the company itself to use the most cutting-edge solutions available. So when the SAP S/4HANA suite was introduced to the market, Innovabee Group was immediately convinced of the potential and power of the new suite, with its combination of transactional and analytic functionality in real time.

As one of the first customers worldwide, Innovabee Group successfully migrated to the SAP S/4HANA Finance solution and now benefits from much better, real-time financial insight. The integration between reports and postings and the SAP Fiori® user experience (UX) has not only increased financial efficiencies but has also enabled Innovabee Group to better manage important aspects of its business. One such aspect is receivables management, which plays an important role for SMEs. Plus, Innovabee Group can now credibly convince its own SME customers that working with SAP S/4HANA is truly revolutionary.

Objectives

- Optimize the company's financial processes and receivables management
- Credibly promote the SAP® S/4HANA suite to its own customer base

Why SAP

- Innovative functionality and market potential of SAP S/4 HANA for the company, both as a customer and as a deployment provider
- Streamlined and real-time integration between postings and reports with the in-memory technology of the SAP HANA® platform

Resolution

- Transitioned the SAP Business All-in-One for Professional Services solution to the SAP S/4HANA Finance solution in six weeks with a downtime of only two days
- Deployed the SAP Fiori® user experience (UX) for role-specific views on any device
- Launched new functionalities including days sales outstanding and business planning

Benefits

- Created immediate access to key financial figures and transactions on any device
- Increased financial efficiencies
- Improved management of important aspects of the business, such as receivables management
- Improved credibility to recommend SAP solutions to its customers

3 days

Reduction in average cycle time for clarifying open items

12%

Reduction in days sales outstanding

Increased

Transparency through real-time data and new reporting capabilities

Higher

Productivity through an enhanced UX and mobile access

“SAP S/4HANA Finance is truly revolutionary. When using the apps, you discover something new every day – a new reporting capability, a new view, or new information – all of which can be integrated straight into daily business tasks. This not only creates extremely high efficiency, but it also opens the door to completely new opportunities for SME businesses.”

Hansfrieder Weber, CEO, Innovabee Group GmbH & Co. KG
